

HIRENDRA KUMAR CHAURASIYA

+91-9546590139 hirendrachaura@gmail.com

Summary

Motivated and detail-oriented Computer Science undergraduate with strong analytical skills and hands-on experience in web development, programming, and system analysis. Passionate about learning modern technologies and solving real-world problems. Adapt in managing multiple priorities with a positive attitude and committed to contributing effectively in collaborative tech environments.

Education

B.Tech in Computer Science and Engineering

Kalinga Institute of Industrial Technology (KIIT), Bhubaneswar India

Currently in 6th Sem

High School - Computer Science (Physics, Chemistry, Mathematics)

CGPA: 7.96 / 10

Aug 2020 - Sep 2022

Birgunj, Nepal

CGPA: 3.44 / 4

Shree Tribhuvan Hanuman Secondary School — Primary Education

Apr 2017 - Aug 2020

Birgunj, Nepal

CGPA: 3.85 / 4

Skills

Languages: Python, C, C++, JavaScript, SQL

Frameworks/Libraries: React.js, Node.js, Express.js, NumPy, Pandas, scikit-learn (basic), TensorFlow (basic)

Tools/Platforms: Git, GitHub, Docker, AWS (EC2, S3, IAM), MySQL Workbench

AI/ML: Supervised/unsupervised learning, data preprocessing, model evaluation, OpenAI APIs, n8n, RAG, Prompt Engineering

Other: Data Structures & Algorithms, REST APIs, System Design Basics

Experience & Projects

Freelance Web Developer — Fiverr

Remote — Jan 2024 – Present

Full Stack Web Development

- Developed and deployed 5+ full-stack web applications using React, Node.js, PHP, and WordPress, improving client engagement and usability.
- Optimized website performance and implemented SEO strategies, increasing visibility and reducing load times.
- Designed responsive and user-friendly interfaces, ensuring cross-device compatibility and enhanced user retention.
- Managed version control and deployment workflows using Git and GitHub.

Research Work — AIMV 2025

Jan 2025 – 2026

Multi Camera System for Smart City

- Co-authored research paper on scalable multi-camera systems for smart city surveillance and monitoring.
- Designed a distributed architecture for real-time video monitoring and urban security optimization.
- Explored integration of intelligent systems for automated detection and smart infrastructure management.

AI Automation Systems — OpenAI, n8n

2025 – Present

AI/ML Engineering Project

- Built AI-powered automation workflows using OpenAI APIs, reducing manual effort in content generation and data processing.
- Developed scalable pipelines integrating APIs, data processing, and workflow orchestration using n8n.
- Applied machine learning concepts and prompt engineering to create real-world SaaS automation tools.

AWS Cloud Training

Feb 2026

Cloud Foundations Trainee

- Gained hands-on experience with AWS services including EC2, S3, IAM, and VPC.
- Understood cloud architecture, deployment models, and security best practices.

Campus Second-Hand Marketplace — React, Node.js, Machine Learning

Feb 2025 – Mar 2025

Full Stack Project

- Engineered a full-stack marketplace platform supporting 25+ campuses with scalable architecture.
- Implemented a keyword-based recommendation system to improve product matching and search relevance.
- Integrated real-time chat using Socket.io, enabling seamless buyer-seller communication.
- Applied basic machine learning concepts for improving user-product interaction and filtering.

Courses & Certifications

- **AWS Academy Graduate – Cloud Foundations** — Amazon Web Services — Feb 2026
[View Verified Badge](#)
- **AWS Emerging Talent Community** — Amazon Web Services — 2025
- **Python Essentials 1** — Cisco Networking Academy — 2024
- **Machine Learning & AI** — Self-Learning (Hands-on projects using Python, scikit-learn, TensorFlow)
- **Operating System** — Cisco Networking Academy — 2024
- **GitHub Foundations** — DataCamp — May 2025
- **Fundamentals of Search Marketing**
- **Computer Hardware Basics**
